Sherrard, and Wanda Balser. Your prizes are in the classroom with your winning ticket attached.
Needing Support

The Employee Support Fund has been helping our own employees for several years now with emergency aid. When an employee has an unexpected car repair or plumbing bill, to name some situations, the Employee Support Fund can help.

If every employee would give $1 per pay period, we could accumulate would be $12,000 a year.

That is our our own employees helping our own in times of need. Our account is very low!!!

Relay for Life Team Members Needed

If you have been supporting Relay for Life with payroll deduction, you should contact Rosa Thayer, at 997-8641, or e-mail her at rthayer@stonewallhospital.net, so that you can be signed up as a team member.

Relay supports the American Cancer Society which supports lots of research for cancer.

Contribution...

It is so nice at Christmas time to have gifts donated to the patients here. Pictured at left are OB staff receiving Teddy Bears from a local organization.
Congratulations to the Surgery Department for their kindness shown to the patients at Crestview in Jane Lew (pictured above.) The Surgery staff conducted a collection of needed items for those at the Nursing Home and we understand that everything was very well received and the patients loved the children...thanks again for a job well done!
Start Planning for the
SJMH Ski Trip
to Canaan Valley Resort
Sunday, January 22, 2017

Please contact Rhonda Hager to sign up and make your payment by Wed., Jan. 11, 2016 in order to guarantee this discounted rate.
Testing Patients in Cerner

All,

I noticed today that there were several new ZZTEST patients in PROD, as well as a lot of orders on an Active encounter in ZZTEST, Inpatient. As previously discussed, the use of test patients in PROD should be done as little as possible, and then only with coordination with Finance and Medical Records. These patients will receive charges just like real patients.

I have Discontinued active orders, Discharged active encounters and Combined the new patients back into the original 4 ZZTEST patients we started with. (the one exception is the ZZTEST, LABBLOODGLUCOSE – I’ll get with Angie on that one) Here is what remains:

<table>
<thead>
<tr>
<th>Name</th>
<th>MRN</th>
</tr>
</thead>
<tbody>
<tr>
<td>ZZTEST, OUTPATIENT</td>
<td>80000004; 852456; 102806; 102804; 300038; 100902; 3C</td>
</tr>
<tr>
<td>ZZTEST, LABBLOODGLUCOSE</td>
<td>300695</td>
</tr>
<tr>
<td>ZZTEST, INPATIENT</td>
<td>8000016; 300282</td>
</tr>
<tr>
<td>ZZTEST, BABY</td>
<td>300034; 300053</td>
</tr>
<tr>
<td>ZZTEST, ADMISSION</td>
<td>8000008; 8000010; 8000009; 8000013; 8000014; 8000C</td>
</tr>
</tbody>
</table>

Please remember the following:
1. Only test in PROD if absolutely necessary (ie. only interface is in PROD)
2. If you must test in PROD, let Finance and Medical Records know what you are doing
3. Only use one of the existing four ZZTEST patients. Do not create new ones.
4. As soon as testing is complete, Cancel/Discontinue/Credit the tests that were performed and Discharge the encounter
5. Keep track of what was done so that Finance and Medical Records can ensure those items are reflected in reports and statistics.
6. BuildB has been recently refreshed as a copy of PROD, so most of your testing should be able to be done there.

Thanks,

Brian
