Safety Fair from Page One
In 2001, my daughter was diagnosed with stage IV Brain Cancer. She was a patient at WVU, St. Jude, and Women’s and Children’s in Charleston, WV. Over the two years she was receiving treatments, we were housed at a Ronald McDonald House. This year marks her 15th year of surviving cancer and we want to mark this milestone by paying it forward to our local Ronald McDonald House in Morgantown. We are leaving a box at the console for donations. The supplies will be delivered by the Ireland CEO’s club. Below is a list of items that could be used. We will be collecting donations until November 1.

Thank you for your support.

“80% by 2018” Project

“80% by 2018” is a National Colorectal Cancer Roundtable initiative in which hundreds of organizations have committed to substantially reducing colorectal cancer as a major public health problem and are working toward the shared goal of regularly screening 80% of adults aged 50 and older screened for colorectal cancer by 2018. Hundreds of organizations – including medical professional societies, academic centers, survivor groups, government agencies, cancer coalitions, cancer centers, payers and many others – have signed a pledge to make this goal a priority. If we can achieve 80% by 2018, 277,000 cases and 203,000 colorectal cancer deaths would be prevented by 2030.
